N.H. Rivers Management and Protection Program **N.H. Rivers Management Advisory Committee**

February 9, 2021

The Honorable Kenneth Weyler, Chair House Resources, Recreation and Development Committee Legislative Office Building, Room 210-211 Concord, NH 03301

RE: HB 412 An act making an appropriation to the department of environmental services for the purpose of funding public water system projects.

Dear Chair Weyler and Members of the Committee:

The Rivers Management Advisory Committee (RMAC) is writing to express its support of House Bill 412, which funds drinking water projects.

With many demands on public water systems such as drought and waterborne pathogens, funding to support testing, treatment, and delivery are more important than ever before. In addition, the more efficient the water plant and delivery system is, the less water that needs to be drawn from the source, whether it is from a river, a lake, or groundwater, which conserves that water for other uses or for critical needs in times of drought.

The RMAC is a legislatively created body charged to work with the New Hampshire Department of Environmental Services (NHDES) to administer RSA 483, the Rivers Management and Protection Program. The Governor and Council appointed Committee is comprised of members from business, agriculture, hydroelectric, municipal government, water supply, conservation, recreation, fish and game, and historical interests. Among its other responsibilities, the RMAC is charged with reviewing legislation relevant to the Program and with advising the NHDES Commissioner on the merits of such legislation.

In conclusion, the RMAC supports HB 412 as it provides funding for water infrastructure projects.

Should you have any questions regarding our testimony, please feel free to contact me at 603.796.2615 or <u>MLT@naturesource.net</u>.

Sincerely,

Michele L. Tremblay RMAC Chair

The Honorable Kenneth Weyler Chair, House Finance Committee HB 412 February 9, 2021 Page 2
