

February 9, 2024, 8:30 – 9:30 by Zoom

**RMAC/LMAC Joint State Lands Mapping Subcommittee meeting**

*Attending –*

RMAC: Pete Bowman, Cory Ritz, Larry Spencer, Michele L. Tremblay (Chair)

LMAC: Janet Kidder, Lisa Morin

RMAC/LMAC: Mark Hemmerlein

NHDES: Tracie Sales

GUESTS: Shane Bradt (at end)

Following up on the prior week's discussion of speeding up the process of reviewing properties, Michele proposed using a system discussed between meetings of having one person share their screen and another recording the decisions made. Having practiced prior to the meeting, Mark and Tracie suggested having Tracie share her screen and Mark record the data.

Michele asked why the screen that Tracie shared looked different from the normal look of the mapping tool. Tracie replied that she is logged into the viewer because the normal mapping viewer colors the properties based on score while the view when logged in colors the properties based on committee review status which is more helpful during the meetings.

The group continued assessing properties in Rockingham County using this new procedure. The group focused on parcels south of Rte. 101 and reviewed 79 properties.

Near the end of the meeting, Shane Bradt joined to discuss ownership of the tool and underlying base layers. Shane will email Kristen Svendsen at NHDES to set up a meeting with her and Mark H., and any others who wish to attend.

Next meeting: Friday, February 16, 2024
